SUMMARY:

UX Researcher & Product Designer specialized in transforming mixed-methods research into scalable products. Skilled in bridging user insights with production code to drive business outcomes. Based in Dominican Republic (EST), available for remote international contracts and open to future relocation to Canada.

EXPERIENCE:

LEAD UX RESEARCHER | JAN 2026 – PRESENT

Digital Silicon Valley

- Led foundational mixed-methods UXR for a FinTech/GovTech startup platform connecting investors with MSMEs; collaborated closely with software engineers to integrate user insights into the product architecture ahead of a project acquisition.

FOUNDER & PRODUCT RESEARCHER | MAY 2025 – PRESENT

FrelanFlow

- Executed user research and product strategy for a freelance financial SaaS, mapping key income-tracking pain points.
- Designed wireframes and interactive prototypes while using AI workflows to accelerate research synthesis.

UX RESEARCHER & FRONTEND DEVELOPER | MAY 2026

Dirección Nacional de Inteligencia (DNI) – Applied Project

- Redesigned the agency’s web architecture through foundational user research, user flows, and wireframes.
- Built the responsive front-end interface using modern CSS and JavaScript to bridge research insights with production code.

EDUCATION

2023 - 2026

MULTIMEDIA TECHNOLOGY

Instituto Tecnológico de las Américas (ITLA)
